**Total Lots:** 184     **Total Birds:** 184

The Council is more than happy to assist bidders in any way possible. For those wishing to attend the auction we are happy to provide information on local accommodation and provide directions on how to get to the auction venue. For those unable to attend we can assist with bidding. This can be done by setting a limit for any lots prior to the auction. We can then have somebody bid on your behalf to that limit. Of course if the bird sells for an amount under your limit you only pay that amount. If the bird goes over your limit then obviously you miss out. Alternatively, contact us and we can arrange telephone bidding for you. You then have the ability to listen in on any of the lots you may be interested in and bid via the telephone. In all cases payment must be made prior to the birds being released from the venue.

# Auction Rules and Conditions

## VENDORS

1. Any bird/s presented showing obvious signs of deformity, sickness or disease in the opinion of both the Auction Coordinator and the Safety Officer shall be removed from the auction staging to a predetermined 'quarantine' area.
2. The Auction Coordinator will notify the Vendor with respect to the reason for non-acceptance and the requirement to remove the bird/s from the venue.
3. During the course of the Auction any bird may be de-benched and 'quarantined' if in the opinion of both the Auction Coordinator and the Safety Officer it is deemed that its condition has changed such to warrant removal. In this instance, the previous clause applies.
4. The need to remove a bird from the auction on the basis of deformity, sickness or disease shall be made with reference to the Disqualification clauses of The Standard and in particular "Symptom of illness" "Presence of Mites" "Presence of Lice" and the "Deformity or injury" clauses.
5. In the best interests of the hobby, it is expected that birds with any other known or suspected problems will not be placed in the auction without written disclosure clearly attached to the front of the cage.
6. Any substitute birds not meeting the age requirements for the auction will not be accepted.

## PURCHASERS

1. Each purchaser will be required to register prior to entering the auction room. Each purchaser will receive a bidder's number. The bidder's number will be required to purchase any lots at auction and must be shown to the auctioneer after the fall of the hammer.
2. Judging sticks and carry cages will not be allowed into the auction room area. The birds must not be interfered with or subjected to sticks, pens or similar objects.
3. All lots will be submitted in the order in which they appear in the catalogue; however, if necessary the BCSA reserves any right to make any alterations, additions or deletions to this order.
4. All conditions and warranties expressed or implied by law are hereby excluded and as all lots are open for inspection prior to commencement of the sale, the same are sold with all faults, if any, therefore no compensation shall be made in respect of any fault or imperfection or error of description of any lots sold or otherwise. Upon the fall of the hammer each lot shall be at the purchaser's risk.
5. Subject to the vendor and auctioneer having the right to bid, the highest bidder shall be the purchaser and in the event of any dispute, the lot in dispute shall be put up again and the auctioneer's decision shall be final.
6. The auctioneer reserves the right to accept or refuse any bid on birds without having to state the reason or reasons thereof.

7. After the fall of the hammer no party will be allowed to retract his/her bid.
8. Payment for the goods on the day shall be CASH & CARD only unless prior arrangements have been made.
9. Successful purchasers of lots will be required to take their purchases with them at the completion of the auction.
10. If any successful bidder shall fail to pay for their purchases on the day, the vendor or his agents have the right to resell the lot in any manner they think proper.
11. Receipt of purchases must be obtained from the cashier upon payment of the lot, then proceed to the allocated collection point with own carry cage and evidence of purchase. The purchaser will be required to move the bird/s from the sale cage and transfer it/them to their own cage. The vendor, his agent, the auctioneer or any staff will not be handling the birds. It is the sole responsibility of each purchaser to handle his/her own birds at collection.
12. Given that a \$5.00 minimum commission will be retained by Council **bidding will start at \$20.00 on all lots.** This includes birds passed in, which will not be re-auctioned. Private sale may be negotiated outside the venue and will not involve the BCSA.

**PLEASE NOTE: IT IS THE RESPONSIBILITY OF THE PURCHASER TO PROVIDE THEIR OWN BIRD TRANSPORT CAGES**
